# Our Projects مشروعنا

# Four Seasons Hotel, Jeddah

## Introduction

Four Seasons is experiencing incredible growth and momentum in Saudi Arabia and a new project in Jeddah at the Corniche will be a perfect complement to their existing and future properties in this important destination. Four Seasons is dedicated to bringing dynamic projects to market that offer 269 luxuriously appointed guest rooms and suites, 21 serviced apartments for short and long-term stays, and 64 Private Residences including two penthouses. Accommodations will include expansive living spaces for families, tranquil spa-inspired bathrooms and marble-clad interiors throughout.

## Work Commitments

We are in a contract with **Zamil Coolcare** for complete Mechanical, Electrical and Plumbing setup. Includes Firefighting & Plumbing, Chiller water, HVAC, Low & high current, Installation of panel boards & fabrication. Provide complete MEP services with material or without material.

Contract was held on **December 2021** & expected completion date is **December 2024**.

# Haram Zone 12, Zone 15 & 16, Makkah

## Introduction

Masjid al-Haram also known as the Grand Mosque or the Great Mosque of Mecca, is a mosque enclosing the vicinity of the Kaaba in Mecca. As of August 2020, the Great Mosque is both the largest mosque in the world, and the most expensive building in the world. It has undergone major renovations and expansions through the years.

## Work Commitments

A contract with **Zamil Coolcare** was held on **June 2022** for complete Mechanical, Electrical and Plumbing setup including work related to HVAC, Low & high current, plumbing, Cable Pulling, Cable tray etc.

# Sulaiman Al Habib Hospital, Al Muhammadiyah, Jeddah

## Introduction

As-Suwaidi is the first private digital hospital with a state of the art medical facility in Saudi Arabia that uses advanced electronic systems and integrates them at all stages of the patient care to aid healthcare professionals and provide optimum diagnosis and management of complex diseases.

The hospital has adopted and implemented highest level of quality standards thereby incorporating national and international best practices and evidence based medicine.

## Work Commitments

A contract with **Zamil Coolcare** was held on **August 2023** for complete setup of Cable Pulling, Cable Tray, EMT (PVC), HVAC, Low & high current Transformer installation & termination, Internal and External work (MDP LP) Low current. The contract is supposed to be completed by Year **2025**

# Work order number WO/11, Al Yamama, NEOM

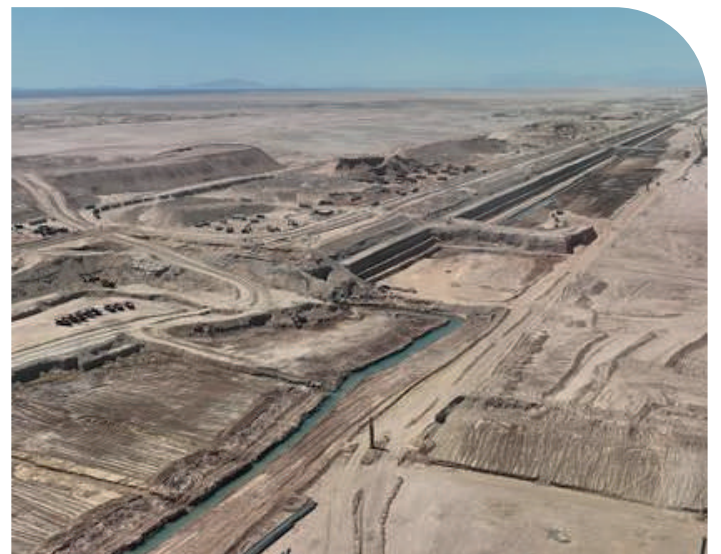

## Introduction

AL-Yamama Group, has been a reliable, renowned, multi-Disciplines construction services provider in Saudi Arabia since 1952. They are recognized leader in the construction market with a reputation of efficient, impeccable service. We continue to expand our construction expertise, incorporating the latest and most advanced technologies in our Industry. Their expertise and capabilities include providing Design-Build services, procure & construct services and Engineering procurement & construction (EPC).

## Work Commitments

Working on complete supply and installation of galvanized chain link fence system. Our fence material is approved by Defco & our company has worked with the Saudi government multiple times. Except for **Fence work**, our team has been working on the **Lighting pole** and **Foundation** setup since **October 2023** & hoping to complete the project by **December 2023**.

## Introduction

The Bin Zafrah Group is a leading industrial, contracting, and trading group, supplying superior quality products and services to the building industry, such as sanitary ware, ceramics and tiles, water heaters, faucets, plumbing material, PP-R piping systems, PVC pipes and fittings, solid surface and cultured marble. They also carry out contracting work for Saudi Telecom on a number of projects, and supply Vermeer trenching machines and labor to contractors working on drainage systems.

## Work Commitments

Providing **Backfilling** services & conducting back filling tests at **Sandalah Island - Cluster Five** to support and stabilize the structures with the help of pipelines, foundations, or retaining walls. By offering backfilling services we are eager to prevent settlement, damage to utilities, and long-term structural issues.

## Introduction

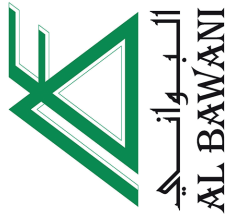

SAPAC has the urge to continue to grow its global footprint, with manufacturing facilities in multiple countries has been founded on very strong pillars. They went from infrastructure to other disciplines and scopes, and today SAPAC construct hospitals, hotels, railways, tunnels, seaports, power, airports, treatment plants, etc. SAPAC can mobilize to any site in Saudi Arabia within 72 hours.

## Work Commitments
